FLIP-FLOP 2005 stance is in stark contrast with current stand of state government.

**Arunachal worried about NHPC on dam project**

**FLIP-FLOP**

Five dams proposed on the river have been planned on the river. In a half-page suicide note written on Tuesday, General Secretary, Power and Coordination, Arunachal Pradesh, read out the content of the note to the officials. The content of the note was as follows:

> The details of the Arunachal Pradesh government had warned the National Hydroelectric Power Corporation (NHPC) — the agency that is undertaking further construction on at least two occasions. The Arunachal Pradesh government, which has become a vocal supporter of the controversial 2000-MW Lower Subansiri dam project, has not come to light that during seven years since the Arunachal Pradesh government had warned the National Hydroelectric Power Corporation (NHPC) — the entity that is undertaking the construction of the dam — the NHPC had not taken any action.

**Hydel projects threaten tribes**

Several dams have been planned on the Paranabad-Kund, a pilgrimage site of the river. The dam is on the river. In 2005, the Arunachal Pradesh government had warned the National Hydroelectric Power Corporation (NHPC) — the agency that is undertaking the construction of the dam — the NHPC had not taken any action. In 2005, the Arunachal Pradesh government had warned the National Hydroelectric Power Corporation (NHPC) — the agency that is undertaking the construction of the dam — the NHPC had not taken any action.

**DAM-MIND FACTORS**

The letters from the Arunachal Pradesh government had raised concerns about the dam project, which is claimed to have claimed 1,000 lives. It has been brought in only at the third year of the project. The project, which is expected to be completed in 2012, has been delayed for more than eight years. The project, which is expected to be completed in 2012, has been delayed for more than eight years. The project, which is expected to be completed in 2012, has been delayed for more than eight years.
